CONVENTION 33 • VIRTUAL and WORLDWIDE!

page 1

Welcome Members and Guests

to IPBA's 33rd Annual Convention — our first Virtual Convention

"Setting Sail for New Horizons" is our theme for this year and how apropos! Navigating the waters for the first time to set up a virtual convention has been a challenge and daunting at times, but a labor of love, and after all is said and done — we've made it happen!

We wish we could be together in person, but I think all of you will enjoy this convention just about as much and, in some cases, even more! The Auction is set to blow our minds with rare and spectacular items for us to bid on, and The Vintage Vanity Online Showroom has some wonderful and beautiful treasures to add to our collections — and will be open for business until August 1.

We have an amazing program for you, and I have no doubt we will all learn something new. Our presenters have worked hard and are ready to share with you some fascinating information and photos. Please be sure to use the "Chat" feature to ask the presenters questions.

We have incredible tours lined up and interactive sessions, too. Please don't forget to attend the Treasures Found event as this year's team will be knocking it out of the ballpark with many fascinating "treasures found" that they will be sharing and discussing with you.

Our Business Meeting is a not to be missed session too. Voting on changes for our association and for a new Board of Directors for the upcoming term is on the agenda, as well as presenting IPBA awards and a sneak peek into next year's convention . . . and a whole bunch more.

I hope you embrace our new and exciting virtual frontier. Sit back, relax, and enjoy every minute!
We're looking forward to seeing you all virtually!

The Osmothèque, the world's only perfume archive – Video

Thursday, April 29 – 5:30 pm EDT

Perfumes are surely the most delicate and evanescent of all human creations. Yet they make a lasting impression on the memory. What do we do when perfumes are no longer found for sale? How do we find them again?

The Osmothèque (from the Greek « osmè » = odor and « theke » = storage) is a nonprofit organization which opened on 26 April 1990. The first perfume archive in all history, it preserves these very delicate, precious creations from the wear and tear of time and keeps them from becoming lost and forgotten. This living collection of existing or no-longer available perfumes protects the world's fragrance heritage. The Osmothèque collection today represents more than 3,200 perfumes, including 400 that are no longer available.

Perfume Houses, History Preserved through Ephemera — Live Event!

presented by **Jeffrey Sanfilippo**

Friday April 30 – 2pm EDT

Ephemera or any transitory written or printed matters are not meant to be retained or preserved. The word derives from the Greek ephemeros, meaning “lasting only one day, short-lived”. But for collectors and researchers, ephemera has a different meaning. Written or printed materials are long-lasting artifacts that capture the beauty and history of perfumes and vanity items.

This presentation will take you on a journey to discover perfume houses and bottle manufactures through the lens of ephemera including labels, envelopes, catalogs, posters, ads and cards. Some of the materials you will see may be the only remaining document of a long-gone perfume company or image of a bottle. Ephemera is a great way to help identify items you may have in your collection or provide valuable historical references for educational purposes. And the exquisite designs and graphics of printed materials are a visual treasure to experience.
